# My Philosophy

*Applying for a home loan is like wandering the streets of a foreign city when you don't speak the language. Even tougher, when you're on a deadline.*

*My philosophy is simple: do as much of the work as I can for you so you can go about your life; be accessible around your schedule, day or night; tell you like it is so you always know where you stand; and above all, give you my complete attention and my best work.*

*Buying a new home and getting a loan, whether for a purchase or refinance is complicated. My dedication will take much of the burden from your shoulders. There is only one outcome that is acceptable to me. Fortunately, it's the same as yours.*

*It takes a team. It would be my privilege to be part of yours.*

*Please enjoy reading this. I look forward to working with you.*

*Sincerely,*
